

I wholeheartedly encourage Chairman Powell to delay the vote on the broadcast ownership issue until sufficient public debate has been afforded a chance to happen; the efforts to suppress any and all opposition on this matter, the attempt to silence it by refusing to release the wording of the rule changes, and the sheer lack of due process and democratic thought demonstrated by ignoring the vast opposition apparent in any discussion of this issue with the voters, and ignoring Congress' attempt to debate the issue as well, all smack of exactly those things that America is supposed to surpass. I oppose the rule changes completely, and I urge the FCC to delay their implementation.
